**SUMMARY IN SUPPORT OF PETITION FOR SUMMONS**  
**May 24, 2022**

---

On May 14, 2020, Your Honor sentenced Graves to a custody sentence of Time Served followed by 4 years of supervised release.

A home visit conducted in December 2021, revealed that Graves had been using heroin. A follow up drug test later in the month indicated that Graves had also used methadone while not having a valid prescription for the medication.

January 10, 2022, the undersigned was contacted by an officer of the North Las Vegas Police Department who advised that he was dispatched to an overdose scene where Graves was found by family members and unresponsive. Graves was stabilized at the scene and transported to a local hospital where he was later discharged.

Based upon his continued use and inability to stop using controlled substances, Graves was presented with the option to participate in an in-patient treatment program which he was agreeable to. Unfortunately, Graves was physically unable to attend due to a broken foot. As a result, it was recommended that Graves participate in an Intense Out-Patient (IOP) program. This was delayed due to a transportation issue. Graves finally attended his first group session on April 14, 2022. Graves' attendance however has been so sporadic he is nearing an unsuccessful discharge from the program.

Based upon his lack of attendance in treatment and the drug testing procedures, the probation office is recommending a summons be issued and Graves appear before the Court to explain why he is unable to attend treatment as required.

Respectfully submitted,
